

NCUIH BoD passes a resolution supporting greater access to Dental Care for Urban Indians

Category: News

written by NCUIH | May 23, 2016

On May 11/2016 The NCUIH BoD resolved that the National Council of Urban Indian Health supports the use of dental therapists to expand the available dental services in Urban Indian clinics and to provide essential oral health services to Urban Indians.

It was further resolved that the National Council of Urban Indian Health encourages the Indian Health Service to support the expansion of dental therapy beyond Alaska and into health facilities throughout the United States. To view the complete document [please click here](#).
