Project Firstline: UIO Funding Opportunity, Student Fellowships, Hiring Consultants

NCUIH and the Centers for Disease Control and Prevention (CDC) are collaborating on an infection prevention and control (IPC) training initiative for UIO healthcare workers.

CDC's Project Firstline is a collaborative of diverse healthcare and public health partners that aims to provide engaging, innovative, and effective infection control training to more than 6 million healthcare personnel in the United States. Project Firstline will provide every person working in a U.S. healthcare facility the foundational understanding of infection control to protect the nation from infectious disease threats such as COVID-19.

NCUIH is pleased to announce the following opportunities (click to learn more):

IPC Project Champions Funding Opportunity

NCUIH is recruiting Urban Indian Organizations (UIO) to become Infection Prevention and Control (IPC) Systems Champions to undertake locally-defined initiatives accompanied by a core set of requirements for targeted training and development as part of Project Firstline. Selected UIOs will have the opportunity to tailor activities and learning opportunities unique to Indian Country and to share their knowledge and expertise in adapting current IPC guidelines to combat the current COVID-19 pandemic on the frontlines of their organizations.

Collaborative activities will be facilitated by NCUIH and co-created by UIO IPC Systems Champions in a model that embraces Champions as teacher-learner and relies on 4 key principles of adult learning (involvement, experience-based, problem-centered, immediate relevance).

Goal of the Champion Initiative

Identify and implement sustainable UIO systemic changes in infection prevention and control critical to a culture of safety and create organizations that are flexible and responsive to ongoing needs during the pandemic and beyond.

Opportunity Overview for UIO IPC Systems Champions (IPCSC)

- Maximum of 5 UIOs will be selected
- Competitive awards of up to \$40,000
- Duration of participation is 8 months (November 1, 2020 to July 1, 2021)
- Application deadline: September 30, 2020 at 11:59PM Eastern Standard Time
- Participation requires a commitment to complete the core set of required activities
- Selected Systems Champions will support information gathering, training module and modality development, pilot testing of materials, and participation in frontline staff training within their organization, including potential participation in CDC-supported Project Echo activities
- NCUIH staff bring expertise, experience and support in multiple performance improvement methodologies, including LEAN, Six Sigma, and Just Culture
- Participants are provided access to CDC and other subject matter and training experts
- Option to participate in additional infection prevention and control train-the-trainer opportunities offered by CDC [Click for more info](#)

Application Deadline September 30, 2020 11:59 pm ET
