*****\$20k Signing Bonus*****

Provides primary care in Internal Medicine in a clinic setting. Ambulatory services only, no ER, in-patient, or on-call required. Bakersfield American Indian Health Project (BAIHP) is a patient centered community health clinic that uses cultural and traditional practices valued in American Indian and Alaska Native communities. BAIHP's integrated health care model and employees are an integral part of delivering whole person and holistic care to the community. The Family Practice Physician will play a critical role in making a meaningful difference in the lives of this vulnerable population.

- Provide primary care to patients of all ages (infants to adults), with an emphasis on healing maintenance and preventive care.
- Provide routine prenatal care.
- Communicates effectively with the coding and billing team, and adjusters to guarantee accurate reimbursement outcomes.
- Assist in conducting quality assurance by performing patient chart audit or reviews regularly.
- Performs duties that are required to meet department standards of care and culminate the effective operation of clinical care services.
- Understands the concepts of universal precautions; You must treat all human body fluids as if they were known to be infectious.
- Complies with the BAIHP's HIPAA and Privacy Policies and OSHA.
- Perform other duties that may require expertise and health care program oversight, MD specialties.
- Provides family planning and women's health services.
- Develops, reviews, and revises policies and protocols to meet minimum standards of care, including but not limited to, HIPAA and Privacy policies, compliance forms and audits, federal, state, and local public health orders, and mandate management.
- Plans, develops, and implements medical triage and patient response flow charts and processes for emergency and non-emergency encounters.

- Order or execute various tests, analyses, and diagnostic images to provide information on patients' conditions.
- Assist in the health clinic's chronic disease, health management programs, chronic pain, and psychotropic management.
- Supervises Family Nurse Practitioner (FNP) or Mid-level practitioners work product and collaborates in treatment, assessment, planning and employee performance review.
- Participate as an initiative-taking representative of the Kern Health Systems and other managed care delivery systems planning calls and training, as needed.
- Perform duties utilizing the Team-Based and Community-Defined approach to health care.
- Assists with holistic and traditional medicine education and awareness services and oversight.
- Work records for compliance with requirements imposed by such entities as: California Code of Regulations, Title 22 (CCR T-22), CCR T 24, Joint Commission on Accreditation of Healthcare Organizations, Office of State-wide Healthcare Planning and Development, and Accreditation Association for Ambulatory Health Care.
- Provide training to staff in the proper use of medical equipment, personal protection equipment, and/or medical policy and procedures for safe delivery of care services.
- Make decisions daily that substantially impact patients and their families in a positive manner. Performs other duties as assigned via the company's work order form and/or at the direction of the department Chief Medical Office Manager, Department Chief Administrator or CEO.
