

LEAD BY EXAMPLE

Clean, Disinfect and Cruise with Confidence

TRANSPORTATION IPC CHECKLIST FOR UIOS

BEFORE TRIP

Monitor both your client's and your own health and symptoms. If you're feeling sick, follow your facility protocol.

Replenish supplies (alcohol-based hand sanitizer, PPE, cleaners, and disinfectant).

Clean and disinfect high-touch surfaces such as seat belts, door handles, and steering wheel.

You and the client should use hand sanitizer when getting in the vehicle.

DURING TRIP

Wear masks and sit as far apart as possible if the client has respiratory symptoms.

When possible and appropriate, improve ventilation, for example, open the windows.

Safety Tips
Read and follow the disinfectant label.
Wear gloves when you clean.
Keep your hands and vehicle clean.

Refer to your facility protocol for additional guidance.

AFTER TRIP

You and the client should use hand sanitizer when getting out of the vehicle.

If you suspect any IPC concerns or become symptomatic, inform your supervisor and follow protocols.

Clean and disinfect the vehicle upon arrival at the final location. Be cautious of anything that may have been left behind.
