American Indian or Alaska Native?

You may be protected from the new Medicaid work and renewal rules.

Federal law protects American Indians (including Urban Indians and California Indians), Alaska Natives, and people eligible for Indian Health Service care from the new Medicaid work requirement and six-month renewals. Eligibility is not limited to enrolled members of federally recognized Tribes.

Got a Medicaid notice? Do not ignore it. Not sure if this applies to you? Ask your clinic or health center, or scan to see what to do.
