

The National Council of Urban Indian Health (NCUIH) is the national organization representing 41 Title V Urban Indian Organizations (UIOs) funded by the Indian Health Service. NCUIH is devoted to the support and development of quality, accessible, and culturally-competent health services for American Indians and Alaska Natives (AI/ANs) living in urban settings.

As a result of NCUIH's advocacy efforts, the House of Representatives passed a bipartisan funding bill with an increase of over **\$30 million** for Urban Indian Health. The Senate proposed the highest amount ever recommended for UIOs at \$53 million, setting a high water mark for future funding. The bills await further action.

Federal Relations

100

Meetings attended on behalf of UIOs with federal agencies and stakeholders

9

House and Senate hearings with UIOs represented through testimony and witnesses

20

Comments submitted on behalf of UIOs regarding rules and other policy proposals

10

Congressional bills introduced impacting UIOs including 100% FMAP and Urban Native Vets Health
